Terms and Conditions of Sale.

ALL ORDERS are accepted subject to prior sale, condition of stock, strikes, embargos, weather and other conditions beyond our control.

PRICES herewith cancel all previous lists and quotations and are subject to change without notice. Prices are for the goods f. o. b. our shipping station except on specially bulky pieces, for which additional cost of packing will be charged, and for local delivery to our customers on our regular delivery routes.

STOCK specially selected by customers at the nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

RATES: Lots of 5 and 50 of a variety will be furnished at the 10 and 100 rates respectively.

CLAIMS must be made within 5 days after receipt of goods. Stock delivered in good condition, as per order, is not returnable.

STANDARD GRADING OF STOCK: Guaranteed up to, or better than the grading standard of the American Association of Nurserymen.

WE WARRANT all goods to be true to name, full count, up to grade and in good condition when shipped, or delivered.

WE GIVE NO GUARANTEE on the life of stock as we have no control after it leaves our hands.

TERMS: Cash with order, except to persons who satisfy us as to their responsibility, when for your convenience accounts will be opened due in 30 days from date of invoice. Overdue accounts are subject to interest at six per cent.

NO MODIFICATION of any of the above terms may be made by any agent or representative of Andorra Nurseries, Inc.

Forwarding and Shipping

Give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our judgment in forwarding.

SHIPPING SEASON opens about March 1st in the Spring and August 15th in the Fall.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

CLAIM FOR DAMAGE WHILE IN TRANSIT MUST BE MADE AGAINST THE DELIVERY COMPANY. Have delivery agent note the damaged condition on the freight bill, and present your claim promptly to the transportation company.

51 years of Nation Wide Service

Andorra's First Catalog was issued in 1886. For the past 51 years our lists have presented the best in varieties for the Eastern States.

We have kept our stock up to the **Andorra Standard** and offer it with full confidence that with the ordinary care necessary for freshly planted material, it will give full satisfaction.

A NEW DEPARTMENT

Realizing the importance of Insect Life and fungous diseases as they affect Trees, Shrubs and Garden plants, and in order to keep Andorra's stock in the finest possible healthy condition, we have associated with us Mr. George B. Sleesman, a recognized entomologist, graduate of Ohio State University, holding a Master's Degree in Entomology, and who has had years of experience as a State Nursery Inspector. He will take full charge of the health condition of our stock, its spraying, etc., and, most important, will be constantly on the lookout to see that no pests, either insects or fungous diseases, get a foothold at Andorra.

Mr. Sleesman's services will be available to our customers at a moderate charge.

ANDORRA NURSERIES, INC.

An Invitation to Andorra

Those interested in trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of Colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars.

BY MOTOR from Philadelphia, go out the Parkway; along the East River Drive, continuing up the Wissahickon and Lincoln Drives to McCallum Street, turn left and follow through to dead end, turning right on Mermaid Lane and follow good road, turning left on St. Martins Lane, follow through turning right over bridge at Highland Station, continuing three blocks to Germantown Avenue. Turn left to City Line and then left one square to the Nursery.

TRAIN CONNECTIONS over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half hour from the heart of Philadelphia to Chestnut Hill Stations; from Chestnut Hill a ten-minute ride on the City Line motor bus to City Line brings you within one block of the office.

EVERGREEN TREES

ABIES concolor.

WHITE FIR. Tall, rapid growing; hardy rich silvery needles. For specimen or groups.			Per 10
1½ to 2 ft.	Each \$3 00	\$24 00
2 to 2½ ft.	4 50	36 00
2½ to 3 ft.	6 00	48 00
3 to 3½ ft.	7 50	60 00
3½ to 4 ft.	10 00	80 00
4 to 5 ft.	12 50	100 00
5 to 6 ft.	15 00	
6 to 7 ft.	17 50	150 00
7 to 8 ft.	20 00	180 00
10 to 12 ft.	35 00	

A. nordmanniana.

NORDMAN FIR. Tall; dark, glossy green foliage. Most useful as a specimen.

4 to 5 ft.	Each \$17 50
5 to 6 ft.	25 00

Specimens. Broad, spreading trees, from 14 to 18 ft. in height. \$100 00 to 150 00

A. veitchi.

VEITCH. FIR. Tall slender growth. Foliage deep green—the under side glaucous, giving a bluish effect. Distinct and handsome.

6 to 7 ft.	Each \$12 50	
7 to 8 ft.	15 00	125 00
8 to 9 ft.	20 00	160 00
9 to 10 ft.	25 00	200 00
10 to 12 ft.	30 00	240 00

CEDRUS atlantica.

MOUNT ATLAS CEDAR. Airy pyramidal tree with gray green foliage. Splendid as a specimen.

Specimens. 20 to 25 ft. Each \$125 00 to \$175 00

C. atlantica glauca.

BLUE MOUNT ATLAS CEDAR. Airy pyramidal tree with silvery-green needles. Use as specimen.

5 to 6 ft.	Each \$17 50
6 to 7 ft.	20 00
8 to 10 ft.	35 00

Specimens. 18 to 25 ft. Each \$150 00 to 250 00

CHAMAECYPARIS (Retinospora) *filifera*.**THREAD BRANCHED JAPANESE CYPRESS.**

Medium height; foliage deep green. Valuable in formal work, in mixed evergreen plantings, as specimens, screen groupings and hedges.

Per 10

1½ to 2 ft. Heavy	Each	\$3 50
3 to 3½ ft. Heavy		5 00
Specimens. 7 to 8 ft.		25 00
Specimens. 8 to 9 ft.		35 00
Specimens. 10 to 16 ft.	\$50 00 to	85 00

C. *filifera aurea*.**GOLDEN THREAD BRANCHED.** Growth same as "filifera" but color golden yellow.

3 to 3½ ft. Heavy	Each	\$9 00	\$80 00
3½ to 4 ft. Heavy		12 50	100 00
4 to 4½ ft. Heavy		17 50	160 00
4½ to 5 ft. Heavy		20 00	

C. *lycopodioides*.**CLUB-MOSS CYPRESS.** Unique character of growth. Foliage deep green club moss effect of new growth. Distinct. Rare.

4 to 5 ft.	Each	\$12 50
5 to 6 ft.		15 00
6 to 7 ft.		17 50

C. *obtusa*.**HINOKI CYPRESS.** Tall growth, habit dense; foliage short and deepest green.

2½ to 3 ft.	Each	\$4 50	40 00
3 to 3½ ft.		6 00	54 00
3½ to 4 ft.		7 50	
4 to 4½ ft.		10 00	
5 to 6 ft.		15 00	
Specimens. 10 to 18 ft. Each	\$50 00 to	100 00	

C. *obtusa cripssii*.**YELLOW HINOKI CYPRESS.** Bright Golden foliage, free habit.

3½ to 4 ft.	Each	\$8 50	75 00
4 to 5 ft.		12 50	
5 to 6 ft.		15 00	
6 to 7 ft.		17 50	
8 to 14 ft. Price on application.			

C. *obtusa nana*, and *obtusa magnifica*.**DWARF HINOKI CYPRESS.** Very slow-growing, dwarf. Rich, dark green color. Useful in pots, in garden or in rich base plantings.

Specimens. 7 to 8 ft.	Each	\$50 00
Specimens. 8 to 9 ft.		65 00
Specimens. 10 to 11 ft.		85 00
Specimens. 12 to 14 ft.		100 00

C. *obtusa gracilis*.**GRACEFUL JAPANESE CYPRESS.** Broad oval form with graceful bright green foliage.

1½ to 2 ft.	Each	\$2 50
2 to 2½ ft.		3 50
2½ to 3 ft.		4 50
3 to 3½ ft.		6 00
3½ to 4 ft.		7 50
4½ to 5 ft.		10 00

CHAMAECYPARIS (Retinospora) pisifera.

SAWARA CYPRESS. Tall, pyramidal shape; broad, flat foliage of deep, glossy green. A beautiful formal specimen.

		Per 10
2½ to 3 ft.	Each \$2 50	\$22 50
6 to 7 ft.	10 00	
Specimens. 7 to 8 ft.	17 50	
Specimens. 9 to 10 ft.	25 00	225 00
Specimens. 12 to 20 ft.	\$45 00 to 75 00	

C. pisifera, aurea.

GOLDEN SAWARA CYPRESS. Golden yellow foliage. Like *R. pisifera* in form and habit.

2 to 2½ ft.	Each \$2 50	20 00
3½ to 4 ft.	3 50	30 00
4½ to 5 ft.	6 00	
6 to 7 ft.	8 50	
7 to 8 ft.	15 00	
8 to 9 ft.	20 00	
Specimens. 10 to 20 ft.	\$45 00 to 75 00	

C. plumosa.

PLUME CYPRESS. This, with the golden variety, stands shearing best. Useful for hedges and formal work. A tall pyramidal shape.

2½ to 3 ft.	Each \$3 50	
3 to 3½ ft.	4 00	
3½ to 4 ft.	4 50	
4 to 4½ ft.	5 00	
4½ to 5 ft.	6 00	50 00
5 to 6 ft.	7 50	60 00
6 to 7 ft.	8 50	75 00
8 to 9 ft.	15 00	120 00
10 to 18 ft.	Each \$45 00 to 75 00	

C. plumosa, aurea.

GOLDENPLUME CYPRESS. One of hardest. The rich golden growth of Spring holds well through the Summer. One of the best for specimens or hedges.

Specimens. 5 to 6 ft.	Each \$7 50	60 00
Specimens. 6 to 7 ft.	8 50	75 00
Specimens. 7 to 8 ft.	12 50	100 00
Specimens. 10 to 16 ft.	\$45 00 to 75 00	

C. (Retinospora) plumosa, sulphurea.

SULPHURPLUME CYPRESS. Soft yellowish-green color; compact form.

2 to 2½ ft.	Each \$4 50	30 00
2½ to 3 ft. Heavy	8 50	70 00
3 to 3½ ft. Heavy	10 00	90 00
3½ to 4 ft. Heavy	12 50	100 00
5 to 6 ft. Heavy	17 50	
Specimens. 8 to 10 ft. Heavy	50 00	

Avenue of Cryptomeria Lobbi

CHAMAECYPARIS squarrosa.

MOSS CYPRESS. Choice as specimen. Its silvery-blue foliage is soft and extremely graceful, and stands clipping when used in hedges or for formal specimens.

			Per 10
2½ to 3 ft.	Heavy	Each \$4 00	\$36 00
3½ to 4 ft.	Heavy	5 00	45 00
4 to 4½ ft.	Heavy	7 50	65 00
4½ to 5 ft.	Heavy	9 00	80 00
5 to 6 ft.		15 00	120 00
6 to 7 ft.		20 00	160 00
7 to 8 ft.		30 00	
Specimens.	10 to 12 ft.	50 00	
Specimens.	14 to 18 ft.	\$70 00 to 100 00	

C. squarrosa nana.

A dense, compact little evergreen—of decided value for rock garden planting.

12 to 15 in. spread	Each	\$3 50	30 00
15 to 18 in. spread		4 50	40 00

CRYPTOMERIA japonica lobbi.

LOBB CRYPTOMERIA. Tall and slender. Splendid for formal effects of dark bronzed foliage. The beauty-loving Japanese use this stately evergreen especially for setting off their temples.

3 to 3½ ft.	Each	\$4 00	37 50
3½ to 4 ft.		5 00	45 00
4½ to 5 ft.		6 00	50 00
5 to 6 ft.		7 50	60 00
6 to 7 ft.		10 00	90 00
7 to 8 ft.		12 50	112 50
8 to 9 ft.		20 00	180 00
10 to 11 ft.		30 00	275 00
12 to 13 ft.		35 00	
Specimens.	14 to 15 ft.	at 6 00	per foot
Specimens.	16 to 17 ft.	at 8 00	per foot
Specimens.	18 to 22 ft.	at 10 00	per foot

An Entrance at "Erdenheim"

ANDORRA LANDSCAPE DEPT.

A PLANTING of dignity and simplicity. The value of drifts or masses of a few well-chosen species, instead of a scattering of many kinds, is here shown.

ILEX. See also pages 36, 37, 84.

I. aquifolium.

ENGLISH HOLLY. Bright and cheery in Winter landscapes in protected corners.

		Per 10
1½ to 2 ft.	Each \$4 00	\$35 00
2 to 2½ ft.	5 00	

I. opaca.

AMERICAN HOLLY. Well known and hardier than the English Holly. Effective in border groups or as specimens. Red berries.

Planting Note—The movement of Hollies is not difficult if proper care is exercised. They are delivered with a good ball, which should be planted firmly and well watered. If the further precaution is taken of cutting off the foliage—not stripping it, but cutting the leaf stem—a Holly will seldom fail.

	Per 10	Per 100
1½ to 2 ft.	Each \$2 50	\$20 00 \$180 00
2 to 2½ ft.	3 50	30 00 265 00
3 to 3½ ft.	5 00	40 00 320 00
3½ to 4 ft.	7 50	60 00 450 00
4½ to 5 ft.	10 00	90 00 800 00
5 to 6 ft.	12 50	110 00 900 00

7 to 8 ft.	17 50	160 00 1200 00
9 to 10 ft.	20 00	185 00 1350 00

Extra Specimens. 8 to 10 ft... \$40 00 to 50 00

JUNIPERUS chinensis.

CHINESE JUNIPER. Precise columnar form; grayish-green foliage. For formal effects or mixed evergreen planting.

4 to 5 ft.	Each \$7 50	
5 to 6 ft.	10 00	90 00
6 to 7 ft.	12 50	100 00
7 to 8 ft.	15 00	135 00
8 to 9 ft.	20 00	180 00
10 to 12 ft.	25 00	200 00

The Formal Garden

JUNIPERUS chinensis, albo-varigata.

WHITELEAF CHINESE JUNIPER. Tall pointed pyramid with attractive colored needles. For formal use.

Specimens. 6 to 7 ft. Each \$17 50
Specimens. 7 to 8 ft. 20 00

J. chinensis columnaris.

NEW. COLUMNAR JUNIPER. Tall, slim growth. Steel-blue color. Hardy and a splendid formal specimen.

		Per 10
5 to 6 ft. Each	\$10 00
6 to 7 ft.	90 00
8 to 10 ft.	100 00
14 to 16 ft. Each	20 00
		180 00
		\$30 00 to 50 00

J. chinensis, femina reevesi.

REEVES JUNIPER. Of free-growing form more valued in mixed planting than formal use. Spreading upright branches.

3 to 3½ ft. Each	\$6 00	54 00
3½ to 4 ft.	8 50	75 00
4 to 5 ft.	12 50	110 00
Specimens. 8 to 10 ft.	25 00	
Specimens. 10 to 12 ft.	40 00	

J. chinensis mas.

UPRIGHT CHINESE JUNIPER.

4 to 5 ft. Each	\$12 50	
6 to 7 ft.	17 50	150 00
7 to 8 ft.	20 00	180 00

J. chinensis neaboriensis.

LARGE FRUITED JUNIPER. Of dense pyramidal form. Rich foliage and interesting dark brown berries.

3 to 3½ ft. Each	\$6 00	54 00
3½ to 4 ft.	7 50	70 00
4 to 4½ ft.	8 50	78 50
4½ to 5 ft.	10 00	90 00
5 to 6 ft.	12 50	110 00

JUNIPERUS chinensis pfitzeriana.

PFITZER JUNIPER. Its sweeping gray-green branchlets give this broad, bushy type value for mixed planting.

		Per 10
2 to 2½ ft. spread	Each \$3 00	\$27 50
2½ to 3 ft. spread	4 00	35 00

		Per 100
		\$360 00
		400 00

J. excelsa, stricta.

SPINEY GREEK JUNIPER. Close-growing, pyramidal form with gray-green foliage. Excellent in the formal garden.

2½ to 3 ft.	Each \$4 00	35 00
3 to 3½ ft.	6 00	50 00
3½ to 4 ft.	8 50	

J. procumbens.

TRAILING JUNIPER. Similar to "Douglasi" but of flat growth, trailing close to the earth.

2 to 2½ ft.	Each \$3 00	26 00
2½ to 3 ft.	3 50	30 00
3 to 4 ft.	4 50	40 00

J. sabina.

SAVIN JUNIPER. Dark green foliage. Suitable for rockery work.

1½ to 2 ft.	Each \$2 00	16 00
2 to 2½ ft.	2 50	22 50
2½ to 3 ft.	3 00	25 00

J. sabina, tamariscifolia.

TAMARIX SAVIN. Grayish-green foliage, suited for rockery work. Low, spreading.

18 to 24 in. spread	Each \$3 50	30 00
2 to 2½ ft. spread	5 00	40 00
3 to 3½ ft. spread	6 00	50 00

J. squamata, var. myeri.

MYERS JUNIPER. An upright synamata type—dense growth—terminals of branches tipped with bronzy red. Unique and desirable for rock gardens.

2½ to 3 ft.	Each \$4 50	40 00
3½ to 4 ft.	6 00	50 00

J. virginiana.

REDCEDAR. Tall and slender, resembling the Italian Cypress in form and rich, dark green color. All these Cedars should be used more in deciduous plantings, where they give an enlivening note in color and form. All the tall varieties are excellent for formal work.

5 to 6 ft.	Each \$4 50	30 00
6 to 7 ft.	6 00	40 00
7 to 8 ft.	7 50	50 00
8 to 10 ft.	12 00	80 00
10 to 12 ft.	15 00	100 00
12 to 14 ft.	17 50	160 00
14 to 16 ft.	20 00	

Large Specimens. Price on application.

JUNIPERUS virginiana, cannarti.

CANNART REDCEDAR. Of same form as the Redcedar, but denser in growth with deep-green, tufted foliage.

		Per 10
3 to 3½ ft.	Each \$5 00	\$40 00
3½ to 4 ft.	6 50	52 50
4 to 4½ ft.	7 50	65 00
4½ to 5 ft.	8 50	70 00
5 to 6 ft.	10 00	80 00
6 to 7 ft.	12 50	100 00

J. virginiana, elegantissima.

GOLDTIP REDCEDAR. Like Redcedar in form, with attractive golden tipped growth. Habit compact and columnar. An unusual and beautiful tree.

3 to 3½ ft.	Each \$4 50	37 50
4½ to 5 ft.	7 50	60 00
6 to 7 ft.	12 50	
7 to 8 ft.	15 00	
Specimens.	9 to 10 ft.	20 00 185 00
Specimens.	10 to 11 ft.	25 00 225 00
Specimens.	12 to 14 ft.	30 00 285 00

J. virginiana, glauca.

SILVER REDCEDAR. A bluish gray. For garden or border. Tall and slender, deep-green, tufted foliage.

3 to 3½ ft.	Each \$3 50	30 00	
3½ to 4 ft.	4 00	35 00	Per 100
4 to 4½ ft.	5 00	40 00	\$350 00
4½ to 5 ft.	6 00	50 00	450 00
5 to 6 ft.	7 00	60 00	500 00
6 to 7 ft.	8 00	70 00	600 00
Specimens.	7 to 8 ft.	15 00	125 00 900 00

Specimens. 14 to 16 ft. B. & P.	60 00		

NOTE: Selected glaucous form plus 50%.

SCIADOPITYS verticillata.

UMBRELLA PINE. Characteristically Japanese; compact, slow growing and narrowly conical. A beautiful formal specimen.

Specimens. 9 to 10 ft.	Each \$50 00
Specimens. 10 to 12 ft.	60 00
Specimens. 12 to 14 ft.	70 00
Specimens. 14 to 16 ft.	85 00
Specimens. 17 to 18 ft.	100 00

TAXUS baccata.

ENGLISH YEW. A dense, close branched evergreen with dark green foliage. Berries bright red, splendid in protected positions.

Specimens. 5 x 6 ft.	} Each \$3 00 per unit
Specimens. 7 x 6 ft.	
Large Specimens. 8 ft. x 7 ft. up to 14 ft. x 10 ft.	

Unit Note—Height in feet \times spread = units.

A Border Planting

THE YEW

Possibly no other tree has had more prominence in history and story than the English Yew, and in English gardens it has held a prominent place for centuries.

With the advent of the Japanese Yew in its several forms, the American garden can now have its Yews, perfectly hardy, massive in outline, rich in deep color and in forms adaptable either for specimens, or for hedges.

TAXUS baccata adpressa.

SHORT LEAVED YEW. Deep green foliage; picturesque form, slow growth.

Per 10

2 to 2½ ft. Each \$6 00 \$55 00

3½ to 4 ft. x 1½ ft. 10 00

Specimens. 6 to 7 x 4 to 5 ft. }

Specimens. 7 ft. x 6 ft. } Each \$3 00 per unit

Specimens. 9 ft. x 7 to 8 ft. } See Unit Note below.

Specimens. 10 ft. x 8 to 9 ft. }

Unit Note—Height in feet \times spread = units.

T. baccata, aurea.

GOLDEN ENGLISH YEW. Like the green form in habit, but with exceptionally rich golden tinged foliage.

Specimens. Wide and bushy, boldly contoured.

Specimens. 6 ft. x 5 to 6 ft. } Each \$3 00 per unit

Specimens. 8 ft. x 8 ft. } See Unit Note below.

Unit Note—Height in feet \times spread = units.

T. baccata cheshuntensis.

CHESHUNT'S YEW. [Specimens.]

Per 10

2 to 2½ ft. Each \$6 00 \$55 00

6 to 7 ft. x 6 to 7 ft. spread } Each \$3 00 per unit

10 to 12 ft.		20 00

T. orientalis elegantissima.

GOLDEN COLUMN ARBOR VITAE. Columnar form, of close growth, very richly colored foliage, bronzy gold in winter.

5 to 6 ft.	\$10 00	80 00
6 to 7 ft.	12 50	100 00
7 to 8 ft.	15 00	125 00
8 to 10 ft.	17 50	160 00

THE CANADIAN HEMLOCK

Hemlocks are without question the most popular evergreen in general use. Best effects are secured when these are planted in groups or masses, particularly when native flowering small trees, or shrubs are used in connection with them, as they form a splendid background for Flowering Dogwood, Thorns, Native Rhododendrons and Azaleas give a pleasing effect when so used. **As a hedge** they are unexcelled. Hemlocks should not be planted as isolated specimens except in very protected positions.

TSUGA canadensis.

CANADA HEMLOCK. For enlivening Winter aspect of deciduous planting, especially in woods or shade; in graceful masses, as a hedge plant that stands clipping, or as a specimen this tree is invaluable.

		Per 10	Per 100
2 to 2½ ft.	Each	\$2 50	\$20 00 \$175 00
2½ to 3 ft.		3 00	24 00 225 00

The Evergreen Thorn

EVERGREEN THORN. There is nothing in the least modestly retiring in the character of this Evergreen Shrub. It has a surprisingly vigorous individuality. With its surprises it charms us.

No one can predict the exact form its growth will take. It will thrust its sturdy shoots up the face of a wall or trail them delicately over a bank. It will fill an empty corner with a tumbling mass of green or stand erect to bar the way to trespassers. In the Fall it springs its greatest surprise. There suddenly comes a day when the bush bursts into flame, the ardent, orange flame of its massed red fruit.

Prices on page 34

ENKIANTHUS campanulata.

REDVEIN ENKIANTHUS.	Deciduous but holding foliage very late. Leaves bright shiny green with brilliant autumnal tints. Flowers in terminal umbels yellow and red.	Per 10
2 to 2½ ft.	Each \$2 50	\$20 00

YUCCA filamentosa.

ADAM'S NEEDLE. Clusters of narrow leaves surmounted in Summer by tall stems bearing a profusion of rich, creamy white flowers. Blooms at the same time as Hollyhocks, and groups well with them.

Clumps	Each	\$1 00	7 50
--------	------	--------	------

RICH PLANTING EFFECTS can be secured by the use of Evergreen Shrubs and they are to-day general favorites for all types of planting. For foundation plantings about buildings, for massing as a background in the garden and for planting in shaded positions in the borders and under trees they fill a position which cannot be successfully occupied by any other class of plant material. Care should be used in the Winter protection of this material if in exposed positions. Nothing is better than a leaf mulch covering the ground for six inches deep to be removed in the Spring leaving only the refuse of the mulch to be forked into the soil about the plant for a Summer mulch.

An Effective Entrance

ANDORRA LANDSCAPE DEPT.

DECIDUOUS TREES

**This List Conforms with 1923 Edition Standardized Plant Names.
All Prices are for Stock of Our Selection. Customer's
Selection will be Charged at Value of Stock Selected**

Shade Trees make the home grounds attractive. Around new buildings nothing will give a more finished effect than a few specimen trees for shade. They help to "frame in" the buildings and take away the "newness" of property. Trees up to forty feet in height can be supplied for this purpose.

ACER dasycarpum.

SILVER MAPLE. Tall, stately tree growing best in moist soil; autumnal color; clear yellow.

8 to 10 ft.; 1½ to 2 in. cal.	Each	\$3 00

THE SWEET MAGNOLIA

MAGNOLIA GLAUCA

A BEAUTIFUL, small, shrubby tree, thriving in any good soil or situation, and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white, waxlike flowers are highly fragrant, and the seed-pods which follow open to show brilliant coral seeds.

Used in masses with evergreens, in the shrub border, as hedges or for specimens, it gives added pleasure to any planting.

CHINESE MAGNOLIAS

The Chinese Magnolias give the first gaudy display of spring bloom; their rapid growth, adaptability to all soils and free flowering make them general favorites.

With the first warm breath of Spring the Magnolias come into flower and no display surpasses their rich soft colorings. Magnolias should have a place in planting—as there are few flowering trees that give so great a return year after year.

The Planting Plans are as Important as the Building Plans

There is no doubt that the pleasure we derive from the contemplation or possession of living plants is increased a hundred-fold by skill in their arrangement in the places where they are finally to grow.

The greatest value that a plant can have is certainly not that of a museum specimen, but lies rather in its power to add comfort and attractiveness to the places where we live, work and play.

To all who have planting to do, from the simplest bit to the development of a large place, Andorra Nurseries strongly recommends the advice of a trained Landscape Architect.

From his experience in the use of plant material he can suggest those combinations and arrangements which will be fitting and wise to prevent costly and discouraging mistakes. Planning ahead is a guarantee of success.

ANDORRA LANDSCAPE DEPT.

Flowering Apples

The Flowering Crab Apples, with their fragrant flowers in a great array of color from pure white to deep red, followed by attractively colored fruits, yellow, orange and red, are coming more and more into general favor for ornamental planting. They are ideal for the border, hillside or for garden specimens.

Specimens. 7 to 8 ft. Heavy. B. & B.	6 00	50 00	400 00
Specimens. 8 to 10 ft. B. & B.	7 50	60 00	500 00

E. americana.

BROOK EUONYMUS. Tall, erect growth, foliage bright green. Fruit rose color with scarlet seed coats.

3 to 4 ft.	Each \$0 75	5 00	40 00
4 to 5 ft.	1 00	6 50	50 00

E. europaeus.

EUROPEAN BURNINGBUSH. Tall, erect shrub for border or evergreen planting; fruit bright scarlet.

2 to 3 ft.	Each \$1 00	7 50	50 00
3 to 4 ft.	1 50	10 00	60 00

EXOCHORDA grandiflora.

PEARL BUSH. Tall growing, free flowering. Flowers pure white in terminal racemes. A floral gem.

2 to 3 ft.	Each \$1 00	Per 10 \$5 00
3 to 4 ft.	1 50	7 50

FORSYTHIA—Golden Bell.

Some of the first shrubs to bloom in Spring, its bell-shaped yellow flowers are always welcomed. With rich green foliage these tall graceful shrubs are particularly desirable for borders or masses, or on unsightly banks.

F. fortunei.

FORTUNE'S GOLDEN BELL. Growth rapid, with long semi-upright branches, flowers bright yellow.

2 to 3 ft.	Each \$1 00	Per 100 \$30 00
3 to 4 ft.	1 25	6 00 35 00
4 to 5 ft.	1 50	7 50 60 00
6 to 7 ft. Heavy	2 00	10 00 75 00

F. intermedia.

TALL GOLDEN BELL. The tallest grower, useful for background to other shrubs. Bright yellow flowers.

2 to 3 ft.	Each \$0 50	Per 100 25 00
3 to 4 ft.	75	5 00 30 00
4 to 5 ft.	1 00	6 50
5 to 6 ft.	1 25	8 50 45 00
6 to 7 ft.	1 50	10 00 60 00

F. intermedia spectabilis.

SHOWY GOLDEN BELL. Flowers large, bright yellow. A profuse bloomer.

2 to 3 ft.	Each \$0 75	Per 100 30 00
3 to 4 ft.	1 00	7 50 35 00

F. suspensa.

WEEPING GOLDEN BELL. Golden yellow; branches prostrate. Especially good for slopes.

2 to 3 ft.	Each \$1 00	Per 100 4 00
3 to 4 ft.	1 25	7 50

F. suspensa var. sieboldi.

SIEBOLD FORSYTHIA. Low-growing form with long, trailing branches. Useful for training on trellis.

2 to 3 ft.	Each \$1 00	Per 100 5 00
-----------------	-------------	--------------

F. viridissima.

GREENSTEM GOLDEN BELL. A heavy bushy grower, with deep yellow flowers; dark green leaves remaining on branches later than other varieties.

2 to 3 ft.	Each \$1 00	Per 100 25 00
4 to 5 ft.	1 50	6 25 45 00
5 to 6 ft. Heavy	1 75	7 50 60 00

HAMAMELIS japonica.

JAPANESE WITCH-HAZEL. This variety should be in every planting, as its bloom of mahogany color is unique.

		Per 10
3 to 4 ft.	Each \$2 50	\$22 50
4 to 5 ft.	3 00	27 50
5 to 6 ft.	3 50	32 50

H. mollis.

CHINESE WITCH-HAZEL. Large yellow flowers with red disc at base of petal.

1 to 2 ft.	Each \$1 00	9 00
------------	-------------	------

H. vernalis.

VERNAL WITCH-HAZEL. Of smaller growth than *H. virginiana*. Flowers light yellow, often reddish towards the base. Sepals dark red inside. Fragrant. Blooms in late Winter and early Spring.

2 to 2½ ft.	Each \$1 00	7 50
2½ to 3 ft.	1 50	12 50

H. virginiana.

WITCH-HAZEL. Tall shrub; yellow flowers in late Fall. For borders or in woods.

2 to 3 ft.	Each \$1 00	5 00	
3 to 4 ft.	1 25	6 00	Per 100
4 to 5 ft.	1 50	7 50	\$60 00

8 to 10 ft.	7 50	60 00

SAMBUCUS canadensis.

AMERICAN ELDERBERRY. Quick growing; white flowers in flat panicles in mid-Summer followed by black fruit.

2 to 3 ft.	Each \$1 00	5 00
3 to 4 ft.	1 25	6 50

S. nigra aurea.

GOLDEN EUROPEAN ELDER. Upright, with golden foliage. Will thrive in moist places.

2 to 3 ft.	Each \$1 00	6 00
3 to 4 ft.	1 25	7 50

SORBARIA sorbifolia.

URAL FALSE SPIRAEA. Vigorous shrub, large compound leaves; white flowers.

3 to 4 ft.	Each \$1 25	8 50
-----------------	-------------	------

SPIRAEA.

A specie of shrubs useful in every place—in garden, or singly and massed in border plantings. They include medium and dwarf varieties, blooming from early Spring to mid-Summer.

S. bumalda.

BUMALDA SPIRAEA. Dense broad growth; rosy pink flowers in July.

18 to 24 in.	Each \$1 00	5 00	30 00
-------------------	-------------	------	-------

S. bumalda Anthony Waterer.

WATERER SPIRAEA. A medium grower; rose-pink flowers in Summer; for garden or borders.

1½ to 2 ft.	Each \$1 00	5 00	30 00
------------------	-------------	------	-------

SPIRAEA fimbriata.

FROBEL SPIRAEA. A stronger grower than "Anthony Waterer;" blooms of same color in July and August.

		Per 10	Per 100
3 to 3½ ft.	Each \$1 00	\$7 50	\$60 00

S. prunifolia.

BRIDAL WREATH. Tall grower; shining green foliage; white blossoms in May.

3 to 4 ft.	Each \$1 00	7 50
4 to 5 ft.	1 50	10 00

S. thunbergii.

THUNBERG SPIRAEA. Medium shrub; spreading branches; light green foliage; pure white flowers in earliest Spring.

18 to 24 in. Heavy	Each \$1 00	5 00
3 to 4 ft. Heavy	1 50	7 50
4 to 5 ft. Heavy	2 00	10 00

S. van houttei.

VAN HOUTTE SPIRAEA. Medium height; of merit for lawn specimen or massing; white flowers in May.

2 to 3 ft.	Each \$1 00	5 00	25 00
3 to 4 ft. Heavy	1 25	6 50	30 00
5 to 6 ft. Heavy	2 50	15 00	

STEPHANANDRA flexuosa.

CUTLEAF STEPHANANDRA. Of great value for its fine cut, lacy foliage, where daintiness is desired.

2 to 3 ft.	Each \$1 00	7 50	40 00
3 to 4 ft.	1 50	10 00	60 00

STEWARTIA pseudo-camellia.

JAPANESE STEWARTIA. Small ornamental tree. Bright green foliage. Large white flowers in summer.

3 to 4 ft.	Each \$2 50	20 00
-----------------	-------------	-------

SYMPHORICARPUS chenaultii.

RED FRUITED. Arching branches giving fountain-like effect, slender twigs, fruit red and pink.

2 to 3 ft.	Each \$1 00	4 50	25 00
3 to 4 ft.	1 25	6 50	30 00

S. racemosus.

SNOWBERRY. Low, shade-loving plant; large white berries in Fall and carried through the Winter.

1½ to 2 ft.	Each \$0 75	3 50	20 00
2 to 3 ft.	1 00	5 00	30 00

S. vulgaris.

CORAL BERRY. Dwarf shrub thriving in shade; coral-red berries persistent until late Winter.

2 to 3 ft.	Each \$0 75	3 50	20 00
3 to 4 ft.	1 00	5 00	30 00

SYMPLOCUS paniculata (crataegoides).

ASIATIC TURQUOISE BERRY. A rugged bush with fragrant white flowers followed by berries of turquoise blue.

		Per 10
3 to 4 ft.	Each \$1 50	\$12 50
4 to 5 ft.	2 00	
5 to 6 ft.	2 50	20 00

For the proper watering of trees
THE HYDROSPEAR

The importance of **properly watering** newly planted trees and shrubs is often neglected or very inadequately done because of the lack of a proper method of **getting the water down to the roots** where it will be readily absorbed.

THE HYDROSPEAR is a very handy implement for meeting this problem. By attaching it to the hose and inserting the spear-pointed end into the ground, the water can be placed at from 1 to 3 feet beneath the surface, where it will not only be readily available for the roots but will require less watering. It is a splendid insurance for all new plantings. In the case of large trees where a wide area has to be covered, it can be inserted at different points 6 or 8 feet apart and the whole soil area beneath the tree thoroughly watered.

We use and recommend them very highly.

THE PRICE IS ONLY \$3.75

ROSES

Here we offer a limited selection of standard varieties selected by one of the best Rose specialists, for planting in the east. They sell at a Popular Price, look as well and smell as sweet as the new patented Roses at two to three times their cost—but, should you want the newest, we can supply them at the Patented Price. If you require varieties not catalogued, let us have your list, as we have access to the best selection in the east and can supply your needs.

NATIONALLY ADVERTISED “STAR ROSES” CLIMBING ROSES

CORALIE. Orange-salmon; a strong grower with well-lasting flowers. 75c.

DR. HUEY. Deep maroon crimson; one of the darkest of the climbing Roses. 75c.

DR. W. VAN FLEET. Long pointed buds, open flesh pink. Good foliage. 75c.

GARDENIA. Bright yellow buds opening into double flowers of a rich cream color. 75c.

JACOTTE. A deep orangy-yellow tinted with coppery red; good size, semi-double. Very fragrant. 75c.

MARY WALLACE. Well formed, semi-double flowers of bright rose pink. Fragrant. 75c.

PAUL'S SCARLET. Vivid scarlet; large size. Flowering in clusters on long stems. 75c.

PRIMROSE. Rosette-shaped blooms of primrose yellow. 75c.

SILVER MOON. Fragrant; semi-double flowers, 4½ inches and over in diameter. Creamy white petals of great substance. 75c.

SPANISH BEAUTY. Iridescent pearly pink splashed with ruby carmine. An outstanding Rose. 75c.

NATIONALLY ADVERTISED “STAR ROSES” EVERBLOOMING ROSES—HYBRID TEAS

AMI QUINARD. Black-lustered red. Heads the dark reds. Looks like velvet. Rich fragrance. \$1.00.

AUTUMN. Multicolored. Buds of deep burnt-orange open to medium sized flowers of red, orange and various shades of pink. 75c.

BETTY UPRICHARD. Carmine and salmon. Like Radiance, but different form and color. 75c.

CONDESA DE SASTAGO. Copper and yellow. Vivid color. Almost constantly winning prizes. \$1.00.

DUQUESA DE PENARANDA. Copper-apricot. An enchanting Spanish Rose. Cinnamon-peach color in the Fall. \$1.00.

EDITH NELLIE PERKINS. Salmon-pink. Delightfully fragrant cut flowers in abundance. Fine. 75c.

NATIONALLY ADVERTISED "STAR ROSES"

EVERBLOOMING ROSES—HYBRID TEAS

EDITOR McFARLAND. Deep pink. Long-cutting stems, and flowers last longer than most. 90c.

E. G. HILL. Crimson. Richly fragrant. 50-petalled, perfectly formed flowers to cut. 75c.

ETOILE DE HOLLANDE. Crimson. The favorite. Nearly faultless. True color, form, perfume. 75c.

GOLDEN DAWN. Straw yellow. Long-lasting, tea-scented flowers. Continuous bloomer. Good to show. \$1.00.

LADY ASHTOWN. Carmine-pink. Another continuously satisfactory to bed and cut. 75c.

LUNA. Ivory-white. Richly perfumed, full blooms open rich cream and change to ivory-white. \$1.00.

MARGARET McGREDY. Orange-scarlet. Conspicuously popular and continuously satisfactory. 75c.

MISS ROWENA THOM. Rose-pink. One of the strongest growers. It produces quantities of finely formed, deliciously fragrant blooms. 75c.

MRS. E. P. THOM. Clear yellow. Experts consider it best of its color for bedding and cutting. 75c.

MRS. P. S. duPONT. Golden yellow. Ace of golden yellow Ever-blooming Roses. Many medals. 90c.

PINK PEARL. Clear pearly pink. Very distinct. Deliciously fragrant. \$1.00.

PRESIDENT HOOVER. Multicolored. In 1934 was best American Rose within previous five years. Fragrant. 75c.

SOEUR THERESE. Yellow. Rich daffodil yellow and holds color well. 3-foot upright canes. \$1.00.

SOUV. DE MME. C. CHAMBARD. Coral-pink. Most beautiful Rose of France for 1932. Perfect cut. \$1.00.

THE TRAILING ROSE WICHURIANA

Its spreading branches form a carpet on slope or bank and form a background of shining green to the delicate white blossoms.

HARDY PERENNIALS

N. B.—Quantities of 5 and 50 OF A VARIETY will be furnished at the 10 and 100 rates, respectively.

HERE is a strong appeal in the gardens of old farmhouse and cottage, with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country housewife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the woods edge made gay with Asters, Foxgloves, Ferns and many other shade-loving plants.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list.

At \$2.50, 10-rate, single plants 35c
At \$3.50, 10-rate, single plants 50c
At \$5.00, 10-rate, single plants 75c
At \$10.00, 10-rate, single plants \$1.50

HARDY CHRYSANTHEMUMS

In the early Fall these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous Autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late Autumn, and fill the house with cut flowers.

CHRYSANTHEMUM leucanthemum alaska (Shasta Daisies).	Large, white. All Summer. 2 ft.	Per 10	Per 100

A JAPANESE IRIS GARDEN.

A Very Satisfactory Way to Utilize an Old Pond Bed or Bog

JAPANESE IRIS IRIS KAEMPFERI

50c each; \$4.00 per 10 OF ONE VARIETY

\$35.00 per 100 in not less than 10 of a Variety

Of all the Iris family none equal the Japanese. The large blooms, carried well above the foliage, are gorgeous in their coloring.

(S) Single flowers. (D) Double flowers.

Blue Jay (S.)—Sky blue; distinct white lines.

Blue Danube (D.)—Deep indigo blue.

Gold Bound (D.)—White.

Granite (S.)—Porcelain blue shaded purple.

Mahogany (D.)—Deep velvety, mahogany red.

Mt. Hood (D.)—Deep blue.

Prince Camille de Rohan (D.)—Deep rich dark blue.

Princess Clothilde (D.)—Ash gray blushed with purple.

Pyramid (D.)—Deep violet-purple, veined with white.

Quakeress (S.)—Lavender rose.

Red Riding Hood (S.)—Amaranth; white veinings.

Shadow (S.)—Deep purple.

Snow Bound (S.)—White.

Templeton (D.)—Six-petaled, violet-purple, marbled with white.

Zenobia (D.)—Light ground, suffused with reddish purple.

IRIS GERMANICA. STANDARD LIST

25c each; \$1.50 per 10 of one variety; \$10.00 per 100 in not less than 5 of a variety.

Bossuet. Tall; standard petals purplish bronze, fall petals purple.

Celeste. Beautiful satiny blue.

Clarissima. Standard petals pale yellow, fall petals deep purplish maroon.

Cordelia. Standard petals pale blue, fall petals rosy pink.

Delicata. Tall; standards yellow tinted, falls dashed with purple.

Edina. Clear satin blue, marked with dark blue.

Eytheria. Tall; a very light purple tinted variety; veined purple; very delicate.

Gazelle. Standard petals white, heavily frilled with clear blue; fall petals white, edged blue.

Hortense. Tall; light yellow, tinted with brown veins. One of the lightest varieties.

Hugh Block. Standards yellow, falls bronze.

La Tristesse. Standard petals dull yellow bronze; fall petals veined with maroon, dashed with purple.

Mad. Chereau. White, frilled, with border of clear blue.

Walneriana. Standard petals deep lavender blue, fall petals clear bright blue.

SELECT LIST OF GERMAN IRIS

50c each, \$3.50 per 10

ALCAZAR. Tall, fragrant; standards soft violet to orchid, falls rich velvety purple with white throat heavily veined bronze. Distinct and beautiful.

AMBASSADEUR. Light; standards deep lavender suffused with bronze, falls maroon with purplish cast. Unsurpassed in form and coloring.

APACHE. Medium; standards bright coppery red, falls dark crimson brown. Very distinct in coloring.

BALLERINE. Tall, fragrant, light. An exquisite light blue toned violet; free flowering.

DUKE OF BEDFORD. Tall; standards deep reddish violet, falls rich, velvety, blackish purple; free flowering.

LEUT A. WILLIAMSON. Tall; standards soft campanula violet, falls velvety pansy violet, with blending of yellow at throat.

LOHENGRIN. Tall. Self color Catleya rose.

SELECT LIST OF GERMAN IRIS
50c each, \$3.50 per 10

LORD OF JUNE. Tall, fragrant; standards soft lavender blue, falls rich violet blue.

MARY BARNETT. Tall, fragrant. Soft shade of lavender blue; exquisite texture.

MILDRED PRESBY. Tall; late. A white bicolor with standards of creamy white and falls rich, dark, velvety pansy violet with a narrow lavender-white edging.

MOTHER OF PEARL. Tall; late. Iridescent Mother of Pearl coloring. White throat overlaid with gold.

QUEEN CATERINA. Tall, fragrant. Pale lavender violet with lights of pink tone, giving it an orchid coloring.

RHEIN NIXIE. Medium; standards white, falls velvety violet bordered with white.

SOUV. DE MME. GAUDICHAU. Tall, fragrant; largest, darkest and finest of the dark purple Iris. Falls strikingly brilliant velvety blackish purple.

WHITE KNIGHT. Medium, fragrant, snow-white with waxy texture.

White.	SULPHUREA (Lemon). Sulphur white, delicately tinted. Dwarf.....	1 00	7 50
Rose.	THERESE . Violet rose, changing to lilac white	1 00	7 50

SINGLE PEONIES

The single varieties have been much neglected in favor of the double sorts, but this should not be, as they are quite as showy, and as single specimens or for massing in the shrubberies they are unexcelled. The blooms, from 6 to 8 inches in diameter, are held well above the foliage on stems sufficiently strong to hold them erect, even after heavy rains, when the double varieties droop to the ground. The flowers are of delicate texture and coloring, and, if cut when in the bud, open well in the house and are quite dainty and desirable, especially for table decoration. All have prominent golden stamens.

Pink.	AMIABLE . Delicate rose pink.....	Each	Per 10
Rose.	JOSEPHINE . Bright rose; large loose flowers, with broad petals. A strong grower	1 00	8 50
Crimson.	LUCRINUS . Medium-sized flowers of rich crimson. Tall	1 00	7 50
Crimson.	MARDONIUS . Bright crimson blooms of round form; very bright coloring. A dwarf, compact grower.....	1 00	7 50
Lilac.	MEDUSA . Rosy lilac.....	1 00	7 50

OTHER SPECIES OF PEONIES

Officinalis rubra plena .	This is the very early deep crimson double variety that is so generally used by florists for cut-flowers in early April. It is the third species to bloom.....	1 00	6 00
Tenuifolia plena .	This is the double form of tenuifolia . The bloom is of the same color, but the compactness of the bloom makes the color seem much deeper	1 00	8 50

PHLOX

PHLOX PANICULATA—HYBRID PERENNIAL PHLOX

A succession of flowers of greatest beauty from early July until frost, in softest tones of pink and rose, salmon, mauve and silvery white in great panicled blooms, will brighten the hardy border of mixed varieties of Phlox. Easy of culture, and perfectly hardy, the plants can be used at the edge of shrub border or in the garden, spaced about eighteen inches apart.

THE FOLLOWING CHOICE VARIETIES

25c each; \$2.00 per 10 of a variety, not less than 5 of a variety at the 10 rate; \$15.00 per 100, not less than 50 at the 100 rate.

Africana. Dazzling deep scarlet.

Beacon. Cherry red.

B. Comte. Tall; medium. Intense velvety purple.

Champs-Elysees. Medium; early. Intense rich purple-crimson.

Diplomat. Fine white.

Firebrand. Clear orange-scarlet.

Independence. Tall; early. Pure white, large flowers.

La Vague. Medium; early. Silvery rose.

Leo Schlageter. Brilliant fiery scarlet.

Lillian. Medium. Beautiful salmon pink.

Morgenrood. Medium. Wine red.

Prime Minister. White with crimson eye.

R. P. Struthers. Orange-red.

Rynstrom. Medium. Carmine rose.

Thor. Medium. Deep salmon pink, with scarlet glow. Aniline red eye.

S. sexangulare (Hexagon Stonecrop). Yellow. June. Creeping	2 50	15 00
S. sieboldi (Siebold's Sedum). Pink. August and September. 6 to 8 in....	2 50	15 00
S. spectabile (Showy Sedum). Rose. July to October. 12 to 15 in....	2 50	15 00
S. stoloniferum (Running Sedum). Pink flowers. June. 6 in....	2 50	15 00
S. telephoides (Wild Orpine). Pink. July and August. 1 ft....	2 50	15 00
SEMPERVIVUM (Houseleek). For September bloom in the Rockery or Wall garden it is one of the most effective plants that can be used. Our offering is unusual as to varieties. Potted plants in varieties: arenarium, arachnoideum, glaucum, globiferum	2 50	15 00
SIDALCEA nimmerdorff (Scarlet Beauty). Brilliant pink	3 50	20 00
STACHYS lanata (Woolly Betony). Pink. July. 1 ft.	2 00	15 00

Formal Perennial Garden

	Per 10	Per 100
STATICE armeria laucheana (Thrift). May and June. Rosy red. Free flowering. 9 in.....	\$2 00	\$15 00
S. elegantissima. Blooms larger, flowers richer color than <i>latifolia</i> . 1½ to 2 ft.	2 75	18 00
S. latifolia —See Limonium .		
S. maritima, var. splendens (Thrift). Summer. Rose. 9 in.	2 00	15 00
S. pseudo armeria (False Thrift). Rosy pink. All Summer. 9 in.	2 00	15 00
STOKESIA laevis (cyanea) (Stokesia). July and August. Lavender and white. 1½ ft.	2 00	15 00
THALICTRUM adiantifolium (Maidenhair Meadowrue). Yellow. June. 18 in.	2 50	20 00
T. aquilegifolia (Meadowrue). White. June to July. 3 ft.	2 50	20 00
T. dipterocarpum (Yunnan Meadowrue). Lilac. August and September. 4 ft.	2 50	20 00
T. glaucum (Dusty Meadowrue). Yellow. June and July. 2 to 3 ft.	2 50	20 00
T. polygamum (Tall Meadowrue). White. June. 3 to 4 ft.	2 50	20 00
THERMOPSIS carolina (Carolina Thermopsis). Yellow. June. 3 to 4 ft.	2 50	18 00
THYMUS citriodora (Lemon Thyme). White. June and July. 2 ft.	2 50	20 00
T. languinosum (Wolly-leaved Thyme). Bright pink. 5 in.	2 50	20 00
T. serpyllum. Fragrant foliage. 6 to 10 in....	2 50	

TRADESCANTIA virginiana (Spiderwort). June to October. Blue. 2 ft.....	Per 10 \$2 00	Per 100 \$15 00
TRILLIUM erectum (Wake Robin). Purple. April and May. 9 to 12 in.....	1 50	10 00
T. grandiflorum (Woods Lily). White. April and May. 12 to 18 in.....	1 50	10 00
TROLLIUS europaeus (Globe Flower). Bright yellow. April to June. 1 to 2 ft.	3 00	25 00
T. caucasicus orange globe. Large flowers. May and June. 18 in. Excellent for cutting.....	3 00	25 00
TUNICA saxifraga (Tunica Flower). All summer. Light pink. 6 to 8 in.....	2 00	15 00
VALERIANA coccinea (Valerian). Showy red blossoms. June to October. 2 ft.....	2 00	15 00
VERBASCUM phoeniceum (Purple Mullein). Various. 18 in.....	2 50	
VERBENA venosa (Tuber Verbena). Bluish purple. All Summer. 1 ft.	3 00	20 00
VERONICA longifolia rosea (Speedwell). Rose. July. 1½ to 2 ft.	2 50	18 00
V. longifolia subsessilis. Deep blue. August and September. 1½ to 2 ft.	2 50	18 00
V. prostrata (Harebell-Speedwell). May. Pale blue. Trailing	2 50	
V. repens (Creeping Speedwell). Light blue. May. Creeping; for rock work	2 50	18 00
V. rupestris (Rock Speedwell). May. Bright blue. 3 to 4 in. Spreading	2 50	18 00
V. spicata (Spike Speedwell). June and July. Bright blue. 1½ ft.....	2 50	18 00
V. spicata alba. June and July. White. 1 ft. ...	2 50	18 00
V. spicata rosea. Delicate pink. June and July. 1½ ft.	2 50	18 00
VINCA (Periwinkle). See page 99.		
VIOLA Jersey Gem. Pure violet. May to end of season	2 50	15 00
V. lutea. Rich golden yellow. All season. 4 in.	2 50	15 00
V. lutea splendens. Rich golden yellow. All season. 4 in.	2 50	15 00
V. Perfection. Light blue. All season. 4 in. ...	2 50	15 00

HARDY FERNS

50c each; \$3.50 per 10; \$25.00 per 100
in not less than 10 of a variety

ADIANTUM pedatum (Maidenhair Fern). The most graceful of our Ferns, attaining a height of from 12 to 18 inches in moist, shady locations. It requires a well drained situation. Plant about an inch below the surface of the ground.

ASPIDIUM acrostichoides (Christmas Fern). An evergreen species about a foot high, with deep green fronds. Easily grown in shade, in good garden soil well drained. Plant with the new crowns or buds just at the surface.

A. **aculeatum braunii** (Prickly Shield Fern). A rare Fern with light, glossy green foliage and when grown in very rich soil attains a height of 12 to 15 inches. It is spreading in its habit, similar to the Christmas Fern. Plant with the new crowns just above the surface.

A. **cristatum** (Crested Wood Fern). For rather wet places, attaining a height of about a foot. Fine for lining walks in moist situations or planting in colonies in shade. Set the crown just above the surface.

A. **marginale** (Evergreen Wood Fern). Evergreen. Dark green fronds which are rather stiff in appearance. Used for ground-covers under shrubbery. Plant the crowns just above the surface.

A. **noveboracense** (Shield Fern). A slender Fern growing about a foot high. Fronds 3 to 4 inches wide. For moist, shady locations. Pale green foliage. Should be planted just below the surface of the ground.

ASPLENIUM filix-foemina (Lady Fern). Handsome Fern, 2 to 3 feet high, with finely cut foliage. For moist places in sun or shade, in good, rich soil.

CAMPTOSORUS rhizophyllum (Walking Leaf). For rocks where always shaded. Plant with plenty of leaf mold.

DICKSONIA punctilobula (Gossamer Fern). For either sun or shade. It propagates itself by underground root-stalks.

ONOCLEA sensibilis (Sensitive Fern). For wet places, or in moist soils in sunny locations or shaded spots. Height 1 foot.

OSMUNDA regalis (Flowering Fern). Pale green fronds. Will grow in still water, 2 to 3 inches deep, setting the crowns just above the water; also in moist soils, sun or shade. Grows 2 to 3 feet high.

PELLAEA atropurpurea (Purple Cliffbrake). Useful for wall planting. The roots cling to crevices in the stone. Fronds 4 to 12 inches long.

POLYPODIUM vulgare (Common Polypody). Evergreen. For rockwork. 4 to 10 inches high, forming dense mats. In planting, set the crown just beneath the soil.

PTERIS aquilina (Common Brake). For light, sandy soil or in thin woodlands, in either sun or shade.

WOODWARDIA angustifolia (Chain Fern). For moist garden soil, or rock-gardens. 12 inches high.

FERTILIZERS

HOLLAND PEAT. Excellent for potted plants or for Azaleas, Rhododendrons and similar plants. The brand we offer is the same that we use, and believe is the best for plant growth.

Per bale	@	\$4.00
5 bales	@	3.75 per bale
10 bales	@	3.50 per bale
Car load lots price on application.		

MICHIGAN SOIL SPONGE. A very finely ground sedge peat.

Per 100 lbs.	@	\$3.00
Per 1000 lbs.	@	13.50
Per ton, loose	@	25.00
IN BAGS, 30c per 100 lbs. additional.		

NATIVE LEAF MOULD. Selected from under hardwood growth, and unexcelled for use with Rhododendrons and like plants.

Per 100 lb. bags.....	@	\$3.00
Per 1000 lbs., loose.....	@	13.50
Per ton, loose	@	25.00
IN BAGS, 30c per 100 lbs. additional.		

FINE GROUND RAW BONE. For lawns apply 1000 lbs. per acre.

Bag of 200 lbs.....	@	\$7.50
Per ton (2000 lbs.).....	@	55.00

F. & I. TOBACCO. Fine ground, excellent as a grass fertilizer.

Bag of 100 lbs.....	@	\$3.50
Per ton (2000 lbs.).....	@	45.00

TREE-FOOD. A specially prepared formula which has given us splendid results.

Per 100 lbs.	@	\$6.50
Per 1000 lbs.	@	22.50
Per ton	@	40.00

ACID TREE FOOD. For acidifying soil and correcting over-alkaline conditions.

Per 100 lbs.	@	\$7.50
Per 1000 lbs.	@	25.00
Per ton	@	42.50

SHEEP MANURE, PULVERIZED. For lawns, Perennials and garden flowers, an excellent fertilizer.

Per 100 lbs.	@	\$3.00
Per ton	@	50.00
